# Wilshire Advisors

## Monthly Performance Summary

As of January 31, 2022

## IMRF Performance Summary

- The Illinois Municipal Retirement Fund (“IMRF”) ended January 2022 with a market value of \$54.7 billion, down for the month by approximately \$2.1 billion. IMRF returned -3.80% during the month, underperforming the Total Fund Benchmark which returned -3.31%. Total Fund underperformance was primarily driven by an overweight to U.S. Equity and manager underperformance within U.S. and Non-U.S. Equities.
- The U.S. Equity Portfolio underperformed the Russell 3000 Index during the month, returning -6.27% versus -5.88%. In aggregate, investment manager performance in Large Cap Growth was the largest detractor to relative performance; however, the Portfolio’s allocation to Small Cap Value and Listed Infrastructure helped offset a portion of Large Cap Growth underperformance.
- The Internally Managed Scientific Beta Portfolio outperformed the benchmark during January, returning -4.53% versus -4.76%. Since inception, the strategy has outperformed the benchmark, returning +14.15% versus +13.41%.
- The Internally Managed GSAM-Factor Diversity Portfolio underperformed the benchmark during the month, returning -6.11% versus -5.85%.
- The Public Real Assets Portfolio underperformed its benchmark during the month, but provided a strong diversification benefit, returning -3.02% versus -2.67% for the benchmark.
- The International Equity Portfolio underperformed the benchmark during January, returning -4.77% versus -3.69%. In aggregate, investment managers in both Large Cap Growth, Large Cap Core and Small Cap underperformed their respective benchmarks. Investment managers in Large Cap Value helped offset a portion of underperformance, returning +1.30% during the month.
- The Fixed Income Portfolio outperformed the benchmark during the month, returning -1.95% versus -2.15%. Investment manager outperformance within Core was a notable contributor to outperformance, while the Portfolio’s allocation to Bank Loans provided strong diversification, returning +0.38%, as interest rates rose during January.
- As of January month-end, all underlying asset class allocations in the Portfolio are within the stated four percentage point rebalancing range as outlined by the current Statement of Investment Policy.
