

# Pension Estimate Table: Original ECO

## How to use this table

1. Find your ECO final monthly rate of earnings in the first column. (If you receive a stipend, include the monthly equivalent of the stipend.)
2. Find your years of ECO service credit (top line).
3. Your approximate monthly pension at age 55 or older will be the amount shown at the point where your earnings line and service column intersect.

**For example:** 15 years of ECO service credit and a Final Rate of Earnings of \$1,500 a month will provide an ECO pension of \$825 per month at age 55 or older.

You can also calculate an estimate using your actual IMRF member information through your Member Access account.

## Formal pension estimate

**If you are within five years of retirement,** request a formal pension estimate by calling an IMRF Member Services Representative at 1-800-ASK-IMRF (1-800-275-4673).

**Social Security benefits are in addition to the figures shown below.**

### Final Rate of Earnings (FRE)

Under the Original ECO plan, your FRE is your annualized salary payable on the last day of participation in the ECO plan divided by 12.

The Original ECO FRE does not include any lump sum payments for vacation, sick leave, overtime, personal leave, etc.

If you retire with both ECO and Regular or SLEP service credit:

- The ECO monthly FRE will be used with your ECO service credit
- The Regular/SLEP FRE will be used with your Regular and/or SLEP service credit

YEARS OF ECO SERVICE CREDIT													
Monthly FRE	8	9	10	11	12	13	14	15	16	17	18	19	20
PERCENTAGE OF FINAL MONTHLY SALARY
