Structured for success
The funding clouds on the horizon for the state-funded systems (Teachers, State Employees, University Employees, Judges, and Members of the General Assembly), the city of Chicago funds, and the Cook County systems simply do not exist for IMRF. At IMRF, the Board sets the actuarial principles, calculates employer contributions, and mandates full and timely payments of employer funding.

The benefit design, administration, and policies put in place by past General Assemblies and IMRF Boards of Trustees have created a solid platform for IMRF to guarantee your benefits in the future. When you retired, every dollar necessary to guarantee your stream of monthly retirement payments was set aside in a separate reserve account which is always 100% funded.

Strategic priorities
Your Board of Trustees and staff are currently developing IMRF’s Strategic Plan for the 2017-2019 period. IMRF’s first formal strategic

“When you retired, every dollar necessary to guarantee your stream of monthly retirement payments was set aside in a separate reserve account which is always 100% funded.”
plan was developed in 2005. It has gone through several iterations since then. This new plan will focus on four key areas: Financial Health, Customer Engagement, Workforce Engagement, and Operational Excellence. For each key area we identify an objective, select measures to determine progress, and develop action plans which will get us to our goals.

As you might expect, the financial health of IMRF is of paramount importance. Only through achieving and maintaining a high funding level are we able to fulfill our promises to you.

Ensuring a stable future
Our overriding goal is to be 100% funded because that results in the lowest long-term cost to employers and taxpayers. We work to achieve stable or declining employer contribution rates while at the same time working to ensure our administrative costs are below median as compared to other funds. Over the long-term, 62¢ of every $1 paid out as a retirement benefit has been funded through IMRF investments. The higher that number, the less employers need to contribute, the lower the tax burden, and the higher the sustainability of IMRF.

This approach has worked for 75 years, and it will work for the next 75 years through the efforts of the IMRF Board and staff and through your support. Thank you!

New legislation allows some retirees to re-establish surviving spouse pension

Some retirees who did not have an eligible spouse when they retired now have the option to re-establish surviving spouse eligibility.

Who does this legislation apply to?
You are eligible to re-establish this benefit if you retired before June 1, 2011, without an eligible surviving spouse, received a refund of your surviving spouse contributions, and meet one of the following conditions:

• You entered into a marriage in Illinois on or after February 26, 2014.
• You entered into an Illinois civil union on or after June 11, 2011.
• You entered into a legal relationship in another state or jurisdiction that was not recognized in Illinois until after June 11, 2011, or February 26, 2014.

You must also still be in this same marriage, civil union, or legal relationship.

If this legislation applies to you
If you are eligible to re-establish this benefit, you must be able to pay back your entire surviving spouse refund, plus interest, within a specific 24-month time period. You can pay in one lump sum or spread your payments out.

It is your choice to re-establish this benefit or not
You are not obligated to re-establish this benefit—it is optional.

Look for a letter in your Benefit Statement
Retirees who retired without an eligible surviving spouse will receive a letter from IMRF in Your IMRF Benefit Statement for 2017 with more details and a form for re-establishing surviving spouse eligibility.

Receiving a letter does not necessarily mean this legislation applies to you. If you do not meet the conditions listed, please disregard the letter.
Delta Dental

IMRF retirees can choose between two dental plans offered by Delta Dental. Both plans are PPO plans, and reimbursement is based on the PPO dentist’s reduced fees.
